

Communicating Fail-Safe actuator for controlling dampers in typical commercial HVAC applications.

- Torque motor 180 in-lb [20 Nm]
- Nominal voltage AC/DC 24 V
- Control Modulating
- Position feedback

AFX24LON

Technical data

Electrical data	Nominal voltage	AC/DC 24 V
	Nominal voltage frequency	50/60 Hz
	Nominal voltage range	AC 19.228.8 V / DC 21.628.8 V
	Power consumption in operation	8.5 W
	Power consumption in rest position	3.5 W
	Transformer sizing	11 VA
	Electrical Connection	18 GA appliance cable, 1 m
	Overload Protection	electronic throughout 095° rotation
	Electrical Protection	actuators are double insulated
Data bus communication	Communicative control	LON (FTT-10A)
Functional data	Torque motor	180 in-lb [20 Nm]
	Position feedback U note	Max. 0.5 mA
	Direction of motion motor	selectable with switch 0/1
	Direction of motion fail-safe	reversible with cw/ccw mounting
	Manual override	5 mm hex crank (3/16" Allen), supplied
	Angle of rotation	95°
	Angle of rotation note	adjustable with mechanical end stop, 3595°
	Running Time (Motor)	150 s / 90°
	Running time motor variable	70220 s
	Running time fail-safe	<20 s @ -4122°F [-2050°C], <60 s @ -22°F [-30°C]
	Override control	MIN (minimum position) = 0% MID (intermediate position) = 50% MAX (maximum position) = 100%
	Noise level, motor	40 dB(A)
	Noise level, fail-safe	62 dB(A)
	Position indication	Mechanical
Safety data	Power source UL	Class 2 Supply
	Degree of protection IEC/EN	IP54
	Degree of protection NEMA/UL	NEMA 2
	Enclosure	UL Enclosure Type 2
	Agency Listing	cULus acc. to UL60730-1A/-2-14, CAN/CSA E60730-1:02 CE acc. to 2014/30/EU and 2014/35/EU
	Quality Standard	ISO 9001
	UL 2043 Compliant	Suitable for use in air plenums per Section 300.22(C) of the NEC and Section 602 of the IMC
	Ambient humidity	Max. 95% RH, non-condensing
	Ambient temperature	-22122°F [-3050°C]

Technical data sheet

AFX24LON

Storage temperature	-40176°F [-4080°C]	
Servicing	maintenance-free	
Weight	4.6 lb [2.1 kg]	
Housing material	Galvanized steel and plastic housing	
†Rated Impulse Voltage 800V, Type action 1.AA, Control Pollution Degree 3 - LonWorks and LonMARK© 2007-2009 LonMark International.		
installed by direct shaft mounting on Actuator can be controlled by any cor	direct link to LonWorks network. Actuators are easily air dampers in ventilation and air conditioning systems. npatible LON system. For modulation of dampers and FX24LON provides mechanical spring return operation for	
indicator showing 0° to 95°. The actual damper or valve mechanical stop and operations. A unique manual override of rotation with no power applied. The crank supplied with the actuator. Whe the actuator drives toward the fail-sat is controlled by an Application Specifi microprocessor provides the intellige know the actuator's exact position. The rotation and provides a Digital Rotation actuator in a stall condition. The posit mechanical feedback potentiometers normal rotation without the need of re directly to control shafts up to 1.05° co bracket. A crank arm and several more where the actuator cannot be direct of provides minimum specified torque to	of rotation and is provided with a graduated position ator will synchronize the 0° mechanical stop or the physical I use this point for its zero position during normal control e allows the setting of any actuator position within its 95° is mechanism can be released physically by the use of a en power is applied the manual override is released and fe position. The actuator uses a brushless DC motor which c Integrated Circuit (ASIC) and a microprocessor. The nce to the ASIC to provide a constant rotation rate and to ne ASIC monitors and controls the brushless DC motor's on Sensing (DRS) function to prevent damage to the tion feedback signal is generated without the need for using DRS. The actuator may be stalled anywhere in its mechanical end switches. The AFX24LON is mounted liameter by means of its universal clamp and anti-rotation unting brackets are available for damper applications coupled to the damper shaft. The spring return system o the application during a power interruption. The 5° from full fail-safe) to provide automatic compression t-off.	
and linkage and be capable of direct of actuator must provide modulating da actuators must be designed so that the fail-safe operation. Actuators shall us be protected from overload at all ang independent of torque. A 2 to 10 VDC Actuators shall be cULus listed and has	brs shall be direct coupled type which require no crank arm mounting to a jackshaft up to a 1.05" diameter. The imper control in response to a LonWorks controller. The ney may be used for either clockwise or counterclockwise e a brushless DC motor controlled by a microprocessor and les of rotation. Run time shall be constant, and feedback signal shall be provided for position feedback. ave a 5 year warranty, and be manufactured under ISO andards. Actuators shall be as manufactured by Belimo.	
	Servicing Weight Housing material †Rated Impulse Voltage 800V, Type a LonMARK© 2007-2009 LonMark Inter Direct coupled, fail-safe actuators for installed by direct shaft mounting on Actuator can be controlled by any cor control valves in HVAC systems. The A reliable fail-safe application. The AFX24LON actuator provides 95° indicator showing 0° to 95°. The actual damper or valve mechanical stop and operations. A unique manual override of rotation with no power applied. Th crank supplied with the actuator. Whe the actuator drives toward the fail-sai is controlled by an Application Specifi microprocessor provides the intellige know the actuator's exact position. Th rotation and provides a Digital Rotatia actuator in a stall condition. 	Shaft extension 3/4"	ZS-300-C2
	Shaft extension 1"	ZS-300-C3
	Baseplate extension	Z-SF
	Linkage kit	ZG-JSL
	Jackshaft Retrofit Linkage with Belimo Rotary Actuators	
Tools	Description	Туре
	Belimo PC-Tool, Software for adjustments and diagnostics	MFT-P
	Connecting cable 16 ft [5 m], A: RJ11 6/4 ZTH EU, B: 6-pin for connection to service socket	
	Connecting cable 16 ft [5 m], A: RJ11 6/4 ZTH EU, B: free wire end for connection to MP/PP terminal	ZK2-GEN
	Service tool, with ZIP-USB function, for programmable and communicative Belimo actuators, VAV controller and HVAC performance	ZTH US

Electrical installation

Warning! Live electrical components!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual

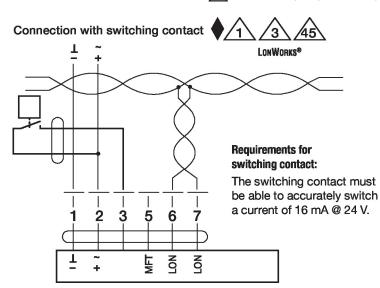

Technical data sheet

who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.

Meets cULus requirements without the need of an electrical ground connection.

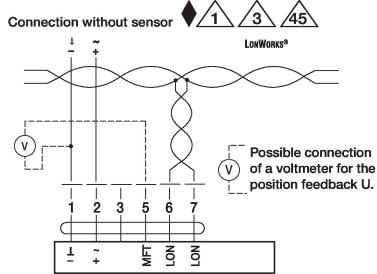

- Λ Provide overload protection and disconnect as required.
- \checkmark Actuators may also be powered by DC 24 V.
- A remote CO2 sensor or DDC controller can change the standard relay opening or closing the sensor circuit. This device can be a relay or a dry bulb/enthalpy limit switch.
- Actuators may be powered in parallel. Power consumption must be observed.
