

Basic Non Fail-Safe multifunction technology actuator for controlling dampers in typical commercial HVAC applications.

- Torque motor 90 in-lb [10 Nm]
- Nominal voltage AC/DC 24 V
- Control MFT/programmable
- Position feedback 2...10 V

NMB24-MFT

Technical data

Electrical data	Nominal voltage	AC/DC 24 V
	Nominal voltage frequency	50/60 Hz
	Nominal voltage range	AC 19.228.8 V / DC 21.628.8 V
	Power consumption in operation	3.5 W
	Power consumption in rest position	1.3 W
	Transformer sizing	6 VA
	Electrical Connection	18 GA plenum cable with 1/2" conduit connector, degree of protection NEMA 2 / IP54, 1 m 3 m and 5 m
	Overload Protection	electronic throughout 095° rotation
Functional data	Torque motor	90 in-lb [10 Nm]
	Operating range Y	210 V
	Operating range Y note	420 mA w/ ZG-R01 (500 Ω, 1/4 W resistor)
	Input impedance	100 k Ω for 210 V (0.1 mA), 500 Ω for 420 mA, 1500 Ω for PWM, On/Off and Floating point
	Operating range Y variable	Start point 0.530 V End point 2.532 V
	Operating modes optional	variable (VDC, PWM, on/off, floating point)
	Position feedback U	210 V
	Position feedback U note	Max. 0.5 mA
	Position feedback U variable	VDC variable
	Direction of motion motor	selectable with switch 0/1
	Manual override	external push button
	Angle of rotation	Max. 95°
	Angle of rotation note	adjustable with mechanical stop
	Running Time (Motor)	150 s / 90°
	Running time motor variable	45170 s
	Noise level, motor	45 dB(A)
	Position indication	Mechanical, 3065 mm stroke
Safety data	Power source UL	Class 2 Supply
	Degree of protection IEC/EN	IP54
	Degree of protection NEMA/UL	NEMA 2
	Enclosure	UL Enclosure Type 2
	Agency Listing	cULus acc. to UL60730-1A/-2-14, CAN/CSA E60730-1:02
	Ouelite Chandend	CE acc. to 2014/30/EU and 2014/35/EU
	Quality Standard	ISO 9001
	UL 2043 Compliant	Suitable for use in air plenums per Section 300.22(C) of the NEC and Section 602 of the IMC

Footnotes	†Rated Impulse Voltage 800V, Ty	pe action 1, Control Pollution Degree 3.	
Application	 For proportional modulation of dampers in HVAC systems. Actuator sizing should be done in accordance with the damper manufacturer's specifications. The actuator is mounted directly to a damper shaft up to 1.05" in diameter by means of its universal clamp. A crank arm and several mounting brackets are available for applications where the actuator cannot be direct coupled to the damper shaft. 		
	The default parameters for 210 V applications of theMFT actuator are assigned duri manufacturing. If necessary, custom versions of the actuators can be ordered. The para can be changed by two means: pre-set and custom configurations from Belimo or on-si configurations using the Belimo PC-Tool software.		
Operation	•	and does not require any limit switches, but is electronically anti-rotation strap supplied with the actuator will prevent	
	actuator. When reaching the dam	f rotation and a visual indicator indicates position of the oper or actuator end position, the actuator automatically stops. gaged with a button on the actuator cover.	
	Specific Integrated Circuit (ASIC).	a brushless DC motor, which is controlled by an Application The ASIC monitors and controls the actuator's rotation and g (DRS) function to prevent damage to the actuator in a stall reduced in holding mode.	
	Add-on auxiliary switches or feed actuator body for signaling and s	back potentiometers are easily fastened directly onto the witching functions.	
Typical specification	crank arm and linkage and be cap Actuators must provide proportion addition of a 500Ω resistor, a 4 to positioner. Actuators shall have be at all angles of rotation. Actuators constant and independent of toro	aators shall be electronic direct-coupled type, which require no pable of direct mounting to a shaft from 1/4" to 1/2" diameter. anal damper control response to a 2 to 10 VDC or, with the 20 mA control input from an electronic controller or rushless DC motor technology and be protected from overload s shall have manual override on the cover. Run time shall be que. Actuators shall be cULus listed, have a 5-year warranty, 9001 International Quality Control Standards. Actuators shall
