Gas Monitors

Refer to Operation Manual section 3 for installation and section 4 for operation and parameters

Important. All wiring must conform to local building codes, regulations and laws. If the equipment is used in a manner not specified by the manufacturer, the protection provided by the equipment may be impaired.

Path for Wires

Notes:

- 1) Do not obstruct the monitor
- 2) Do not ground the 24 V AC/DC $\,$
- 3) When using multiple monitors:
 - a) Maintain the same polarity (24 V AC/DC) for all devices
 - b) CAN bus connection:
 - i) Maintain the same polarity (CAN bus) for all devices
 - ii) Use 24 AWG twisted pair, low capacitance, shielded, communications cable
 - iii) Monitors must be connected in series
 - iv) Switch end of line (EOL) jumpers (for first and last units)
