

### Potable water valve, 2-way, Internal thread

- For potable water applications
- NSF/ANSI 372 Lead Free
- NSF/ANSI 61 CLD 23 Water Quality

# **Technical data**

#### **Functional data**

Valve size [mm]	0.5" [15]	
Potable water certificate	NSF/ANSI 61	
	NSF/ANSI 372	
Fluid	Potable water	
Fluid temperature	-4212°F [-20100°C]	
Body Pressure Rating	600 psi CWP	
Close-off pressure Δps	230 psi	
Differential pressure Δpmax	30psi	
Leakage rate	0%	
Angle of rotation	90°	
Pipe connection	Internal thread	
	NPT (female)	
Installation orientation	upright to horizontal (in relation to the stem)	
Servicing	maintenance-free	
Flow Pattern	2-way	
Cv	29	
Valve body	Lead free and dezincification resistant bronze	

# Materials

Valve body	Lead free and dezincification resistant bronze (CW511L)
Stem	Lead free and dezincification resistant bronze (CW511L)
Seat	PTFE
O-ring	EPDM
Ball	Chrome plated lead free brass
Non Fail-Safe	CQB(X)
Electrical fail-safe	CQKB(X)

# Suitable actuators

Safety no	tes
-----------	-----

- The ball valve has to be exercised at least once a week, so that the quality of potable water as well as the functionality are not affected.
- The valve has been designed for use in stationary potable water systems and must not be
  used outside the specified field of application, especially in aircraft or in any other airborne
  means of transport.
- The valve does not contain any parts that can be replaced or repaired by the user.

#### **Product features**

#### Operating mode

The on/off ball valve is adjusted by a rotary actuator. The rotary actuator is connected by an on/off signal. Open the ball valve counterclockwise and close it clockwise.

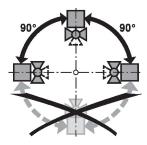

#### **Installation notes**

#### Notes

The ball valve is a regulating device. To fulfil this control task in the long term, the circuit must be kept free from particle debris (e.g. welding beads during installation work).

#### Permissible installation orientation

The ball valve can be installed upright to horizontal. The ball valve may not be installed in a hanging position, i.e. with the stem pointing downwards.

# Servicing

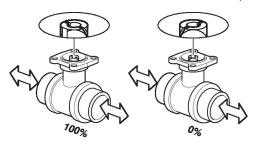

Ball valves and rotary actuators are maintenance-free.

Before any service work on the control element is carried out, it is essential to isolate the rotary actuator from the power supply (by unplugging the electrical cable if necessary). Any pumps in the part of the piping system concerned must also be switched off and the appropriate slide valves closed (allow all components to cool down first if necessary and always reduce the system pressure to ambient pressure level).

The system must not be returned to service until the ball valve and the rotary actuator have been correctly reassembled in accordance with the instructions and the pipeline has been refilled by professionally trained personnel.

#### Flow direction

Please also ensure that the ball is in the correct position (marking on the shaft).

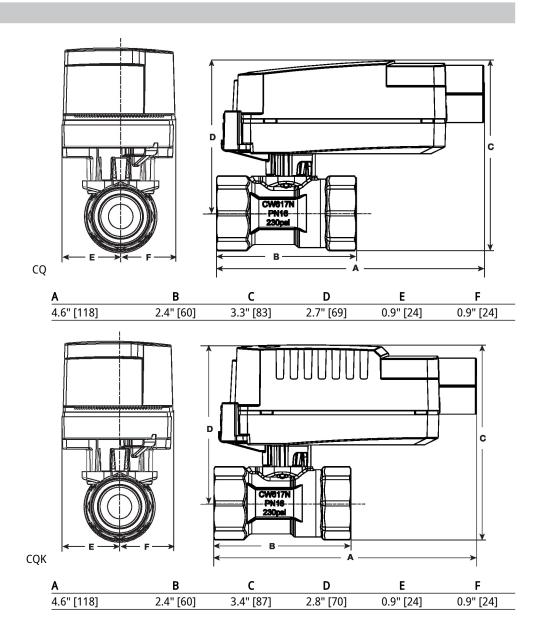

#### **Dimensions**

Electrical data	Nominal voltage	AC/DC 24 V
	Nominal voltage frequency	50/60 Hz
	Nominal voltage range	AC 19.228.8 V / DC 21.628.8 V
	Power consumption in operation	2.5 W
	Power consumption in rest position	0.5 W
	Transformer sizing	5 VA
	Electrical Connection	22 GA plenum cable, 3 ft [1 m], with 1/2" NPT conduit connector
	Overload Protection	electronic thoughout 090° rotation
	Electrical Protection	actuators are double insulated
Functional data	Bridging time (PF)	2 s
	Pre-charging time	520 s
	Angle of rotation	90°
	Angle of rotation note	adjustable with mechanical stop
	Running Time (Motor)	75 s / 90°
	Running time fail-safe	<60 s
	Noise level, motor	35 dB(A)
	Noise level, fail-safe	35 dB(A)
	Position indication	pointer
Safety data	Power source UL	Class 2 Supply
-	Degree of protection IEC/EN	IP40
	Degree of protection NEMA/UL	NEMA 2
	Enclosure	UL Enclosure Type 2
	Agency Listing	cULus acc. to UL60730-1A/-2-14, CAN/CSA E60730-1:02
		CE acc. to 2014/30/EU and 2014/35/EU
	Quality Standard	ISO 9001
	UL 2043 Compliant	Suitable for use in air plenums per Section 300.22(C) of the NEC and Section 602 of the IMC
	Ambient humidity	Max. 95% RH, non-condensing
	Ambient temperature	35104°F [240°C]
	Storage temperature	-40176°F [-4080°C]
	Servicing	maintenance-free
Weight	Weight	0.55 lb [0.25 kg]

#### **Technical data**

Materials Housing material UL94-5VA

#### **Product features**

## **Application**

Electrical fail-safe On/Off ZoneTight actuator.

Valve selection should be done in accordance with the flow parameters and system specifications. The actuator is mounted directly to the valve without the need for tools or additional linkage.

The actuator operates in response to AC/DC 24 V.

Angle of rotation is adjustable with the integrated mechanical stop.

### **Electrical installation**

### INSTALLATION NOTES

Actuators with appliance cables are numbered.

Actuators may be connected in parallel. Power consumption and input impedance must be

Actuators may also be powered by DC 24 V.

Actuators with plenum cable do not have numbers; use color codes instead.

Meets cULus requirements without the need of an electrical ground connection.

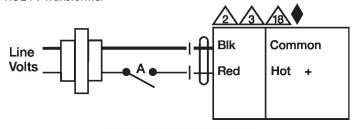

#### Warning! Live electrical components!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
