

Potable water valve, 2-way, Internal thread

- For potable water applications
- NSF/ANSI 372 Lead Free
- NSF/ANSI 61 CLD 23 Water Quality

Technical data

Functional data	Valve size [mm]	0.5" [15]
	Potable water certificate	NSF/ANSI 61
	Fotable water certificate	NSF/ANSI 372
	Fluid	Potable water
	Fluid temperature	-4212°F [-20100°C]
	Body Pressure Rating	600 psi CWP
	Close-off pressure ∆ps	230 psi
	Differential pressure Δpmax	30psi
	Leakage rate	0%
	Angle of rotation	90°
	Pipe connection	Internal thread
		NPT (female)
	Installation orientation	upright to horizontal (in relation to the stem)
	Servicing	maintenance-free
	Flow Pattern	2-way
	Cv	29
Materials	Valve body	Lead free and dezincification resistant bronze (CW511L)
	Stem	Lead free and dezincification resistant bronze (CW511L)
	Seat	PTFE
	O-ring	EPDM
	Ball	Chrome plated lead free brass
Suitable actuators	Non Fail-Safe	CQB(X)
	Electrical fail-safe	CQKB(X)

Safety notes

- The ball valve has to be exercised at least once a week, so that the quality of potable water as well as the functionality are not affected.
- The valve has been designed for use in stationary potable water systems and must not be used outside the specified field of application, especially in aircraft or in any other airborne means of transport.
- The valve does not contain any parts that can be replaced or repaired by the user.

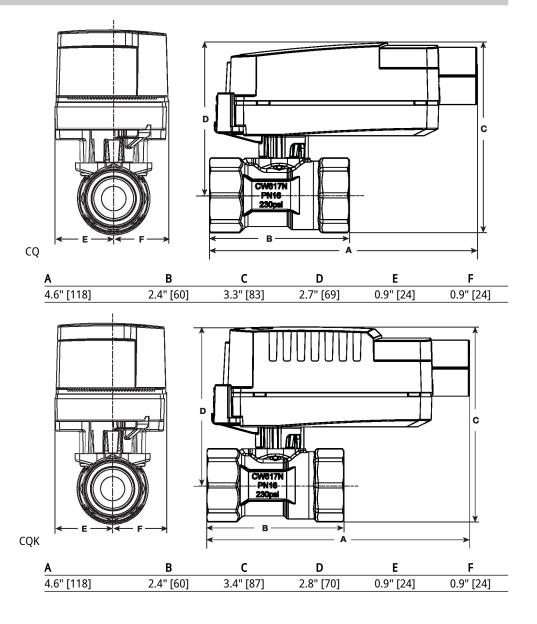

Product features	
Operating mode	The on/off ball valve is adjusted by a rotary actuator. The rotary actuator is connected by an on/off signal. Open the ball valve counterclockwise and close it clockwise.
Installation notes	
Notes	The ball valve is a regulating device. To fulfil this control task in the long term, the circuit mus be kept free from particle debris (e.g. welding beads during installation work).
Permissible installation orientation	The ball valve can be installed upright to horizontal. The ball valve may not be installed in a hanging position, i.e. with the stem pointing downwards.
Servicing	Ball valves and rotary actuators are maintenance-free.
	Before any service work on the control element is carried out, it is essential to isolate the rotary actuator from the power supply (by unplugging the electrical cable if necessary). Any pumps in the part of the piping system concerned must also be switched off and the appropriate slide valves closed (allow all components to cool down first if necessary and always reduce the system pressure to ambient pressure level).
	The system must not be returned to service until the ball valve and the rotary actuator have been correctly reassembled in accordance with the instructions and the pipeline has been refilled by professionally trained personnel.
Flow direction	Please also ensure that the ball is in the correct position (marking on the shaft).

Dimensions

DN	Weight	
15	0.49 lb [0.22 kg]	

On/Off, Electrical fail-safe, 100...240 V

- Nominal voltage AC 100...240 V
- Control On/Off

Technical data

Electrical data	Nominal voltage	AC 100240 V	
	Nominal voltage frequency	50/60 Hz	
	Nominal voltage range	AC 85265 V	
	Power consumption in operation	2.5 W	
	Power consumption in rest position	0.5 W	
	Transformer sizing	7 VA	
	Electrical Connection	19 GA appliance cable, 1 m, with 1/2" NPT conduit connector	
	Overload Protection	electronic thoughout 090° rotation	
	Electrical Protection	actuators are double insulated	
Functional data	Bridging time (PF)	2 s	
	Pre-charging time	520 s	
	Angle of rotation	90°	
	Angle of rotation note	adjustable with mechanical stop	
	Running Time (Motor)	75 s / 90°	
	Running time fail-safe	<60 s	
	Noise level, motor	35 dB(A)	
	Noise level, fail-safe	35 dB(A)	
	Position indication	pointer	
Safety data	Power source UL	Class 2 Supply	
	Degree of protection IEC/EN	IP40	
	Degree of protection NEMA/UL	NEMA 2	
	Enclosure	UL Enclosure Type 2	
	Agency Listing	cULus acc. to UL60730-1A/-2-14, CAN/CSA E60730-1:02 CE acc. to 2014/30/EU and 2014/35/EU	
	Quality Standard	ISO 9001	
	Quality Standard UL 2043 Compliant	Suitable for use in air plenums per Section	
	OL 2043 Compliant	300.22(C) of the NEC and Section 602 of the IMC	
	Ambient humidity	Max. 95% RH, non-condensing	
	Ambient temperature	35104°F [240°C]	
	Storage temperature	-40176°F [-4080°C]	
	Servicing	maintenance-free	
Weight	Weight	0.66 lb [0.30 kg]	

Technical data sheet

CQKBUP-RR

Technical data			
	Materials	Housing material	UL94-5VA
Product features			
	Application	Valve selection should specifications. The actuator is mount	Off ZoneTight actuator. I be done in accordance with the flow parameters and system red directly to the valve without the need for tools or additional linkage is in response to AC 100240 V. Angle of rotation is adjustable with the l stop.
Electrical installation			
		 INSTALLATION NOTES Actuators with appliance cables are numbered. Provide overload protection and disconnect as required. Actuators may be connected in parallel. Power consumption and input impedance must be observed. Meets cULus requirements without the need of an electrical ground connection. Warning! Live electrical components! During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
